

Volusia Future Land Use and Zoning Map Help Sheet

This map contains Volusia County Future Land Use, Zoning and basic Property Appraisal information.

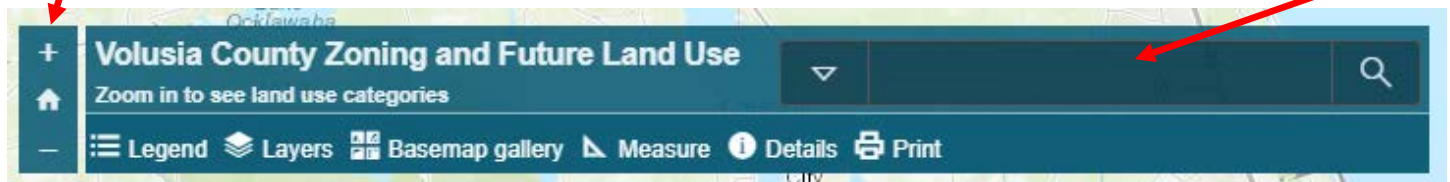

Link to the map:

<http://volusiacyfl.maps.arcgis.com/apps/View/index.html?appid=4cfaae4a6e8242498502a87cf5b171dc>

How do you use this map?

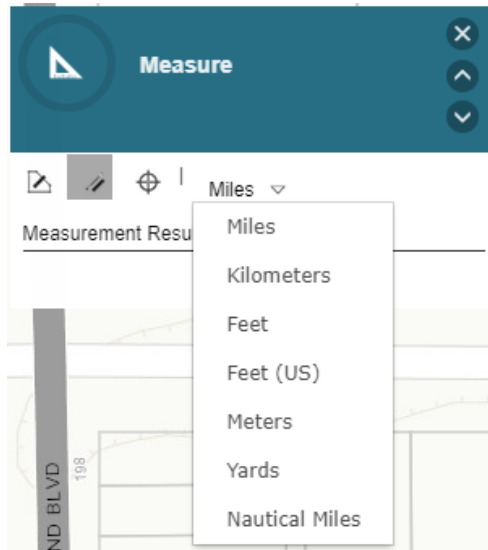

Use the Zoom in tool (+) (or the roller ball on your mouse) to see Future land Use or Zoning data. Zoom in close enough and parcel information will show as well. These tools provide zoom in (+), zoom out (-) and go to full screen (house icon).

You can also use the search tool with either the short (12 digit) parcel number or address to zoom into the map

on or off. If a layer name is grayed out you aren't zoomed in close enough for it to show up on the map. The Basemap Gallery option allow you to see aerial photography or different styles of background maps.

The Measure Tool provides the ability to draw a polygon and get area values back or draw a line and get distance

information. Set your units of measure. Left mouse click to start, double mouse click to finish.

The Details choice provides information about the layers of information shown and links and contact numbers to provide additional information about them if needed.

Once you've zoomed in close enough for zoning and land use (and perhaps parcel) information to show, if

you left mouse click on the map a pop up appears. Note in the example shown, the pop up shows (1 of 3) as there are three layers of data coincident to the point picked. Use the small arrow to toggle between the layers that are coincident to see their information.

Note that this information is provided as a courtesy and is for general planning purposes only. The data shown is maintained by different agencies and on different schedules. Questions should be directed to the Volusia County Property Appraiser's Office (parcel question) or to Volusia County Growth Management (zoning and future land use questions). None of this data represents a survey.
